Objective

Enthusiastic and detail-oriented Python Developer with a strong foundation in web development, database management, and software engineering. Seeking to leverage my technical and problem-solving skills to contribute to dynamic development teams and innovative projects.

Technical Skills

Languages: Python, JavaScript, PHP, SQL, HTML, CSS

Frameworks: Django, Flask, Bootstrap

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman

Others: REST APIs, JSON, AJAX, Web Scraping (BeautifulSoup, Requests)

Projects

Job Portal Platform - Django

- Developed a complete job portal with user authentication, job posting, and application features.
- Integrated custom HTML forms with Django models to retain frontend design.
- Used PostgreSQL as the database and deployed using Heroku.

E-Commerce Website - PHP & MySQL

- Designed a product catalog, cart, and checkout functionality.

- Integrated admin panel for managing inventory and orders.

Music Player App - Django

- Built a responsive web-based music player using Django and HTML5 audio.

- Users can upload, play, and manage music playlists.

Education

Master of Computer Applications (MCA)

Charusat University, Nadiad - 2023-2025

CGPA: 8.4 (up to 2nd semester)

Bachelor of Computer Applications (BCA)

[Your BCA College Name] - 2020-2023

Internship

L&T LTTEH - ASP.NET & Azure AI Intern

- Developed an AI-based report analyzer using Azure services.

- Worked on backend APIs and integrated them into .NET applications.

Certifications

- Python for Everybody - Coursera (University of Michigan)

- Django Web Development - Udemy

- Git & GitHub Crash Course - freeCodeCamp

Soft Skills

- Problem-solving

- Communication

- Time Management

- Team Collaboration
